

Library Association Honors
Three from M. U.

Columbia, Mo., July 12—H. O. Severance, Miss Mary E. Baker and Mrs. Emma K. Parsons of the University of Missouri Library were elected to offices in the American Library Association at a meeting held last week in Louisville, Ky. Mr. Severance, the librarian of the University, who has held the office of secretary of the Bibliographical Society was re-elected to the same office.

Mrs. Charles Mayer returned Sunday evening from a visit in Higginsville.

Mr. and Mrs. Chas. Marshall and two children of Kansas City, spent Sunday here with Mr. and Mrs. W. A. Estabrook.

Chamberlain's Colic and Diarrhoea Remedy.

Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of the family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.

George Kohrs left Sunday morning for his home in Columbia, after a visit here with his parents.

Mr. and Clyde Cannady spent Sunday in Higginsville.

A. Johns spent Sunday in Wellington.

Are You One of Them?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a week or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

Misses Marjorie Chiles of Delta, Col., and Grace Comstock of Kansas City are guests at the home of Mr. and Mrs. W. H. Chiles.

Mrs. J. M. Poage went to Kansas City Tuesday to spend the day.

Cause of Despondency.

Despondency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.

Mr. and Mrs. J. W. Williams and two children went to Higginsville Sunday morning for a week's visit.

Miss Bell Edmonds returned Monday morning to her home in Warrensburg, after a few days' visit here with relatives.

Doing Good.

Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delemon, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."

George Calloway left Tuesday morning for his home in St. Louis, after a week's visit with his sons.

TO LEND TEACHERS

University Promises Aid in Instructing Soldiers in the French Language.

PRESIDENT HILL FAVORS PLAN

Would Form Classes Among the Army Officers at Kansas City and Elsewhere.

The University of Missouri is willing to do its full share in helping those who go from this country to fight on French soil get as much knowledge of the French language as possible. While it would be a fine thing for all the Missouri guardsmen to get instruction, if feasible plans could be found for such a big task, President A. Ross Hill believes that the more important matter would be for the officers, who will assume command of the troops to get instruction in the use of French.

"I believe that the most important move that could be made in this direction," said President Hill recently, "would be to provide instruction in French to the officers in training. A knowledge of French would be of great value to these men in officers' training camps at Fort Riley and other places. The university's force of teachers in French now is either busy teaching in the summer session or away on a vacation."

"If arrangements could be made to give this instruction we would have available about four regular teachers, perhaps, and probably an equal number of advanced or graduate students, who have a thorough knowledge of the language for a course of intensive training at Fort Riley."

"The value of such training for these officers is recognized. Professor Watkins of Chicago University has been doing work along that line at Fort Sheridan and has on the press now a textbook especially designed for these officers' use. The University of Missouri is willing to do everything it can to aid in such instruction."

"The question of finances for this work would be a problem. The university has no special fund at this time that could be used. As to the matter of providing such instruction to all of the guardsmen in the state, it would appear that it would be too great a task."

"But so far as guardsmen are gathered in sufficiently large numbers, such as Kansas City, the university will endeavor to do its part in connection with the Kansas City schools."

DISEASE SPREAD BY INSECTS

Dr. Ravenel Believes Malaria Can Be Eliminated by Preventing Propagation of Them.

"Malaria fever causes twelve thousand deaths in the United States every year, but there are more than a million and a quarter cases of the disease. It, therefore, is a great economic problem. It is confined largely to the southern states of the Union," says Dr. Ravenel, of the State University.

"It is, therefore, most important to protect persons suffering from malaria fever. This is done by having wire screens in the windows or by covering the bed with mosquito netting. In districts where malaria is prevalent, the windows should be screened to protect well people as well as the sick."

"It is spread entirely by one species of mosquito, called Anopheles. The disease is found, then, only where the Anopheles can breed and flourish."

In Memory of Captain Gentry.

Gen. David Thompson Chapter United States of 1812 and fifty descendants of Capt. Reuben Gentry met at Sedalia recently and honored the memory of the distinguished soldier when a bronze marker was placed over the grave of Captain Gentry in Crown Hill cemetery.

Fulton Bond Issue Loses Again.

The McCredie consolidated district of Callaway county voted for the fourth time recently on a \$7,200 bond issue to erect two new buildings and for the second successive time lacked one vote of the necessary two-thirds to pass the measure. Another election will be called.

Fair Buildings for War Use.

A. B. Duran of Kansas City, a member of the Missouri Council of Defense, has arranged to make a trip to Washington, D. C., for the purpose of offering to the Secretary of War, on behalf of estate authorities, for an aviation training school, the free use of the state fair buildings at Sedalia.

Red Cross Chapter at Aux Vasse.

A Red Cross chapter has been organized at Aux Vasse as part of the organization in Callaway county. One will be organized at New Bloomfield soon.

Child Malaria Claims Eight More.

Eight more deaths have resulted in the northern part of Scott county from enterocolitis, the disease which has killed more than a hundred persons in Southeast Missouri. Seven of the deaths were at Sikeston and one at Crowder.

MILK ONE OF CHEAPEST AND BEST SUMMER FOODS

Costs Less Than Meat or Eggs, Medical Expert Says.

Columbia, Mo., July 12—Foods are not cheaper or expensive according to the price paid for them, but according to the food value which we obtain for a given amount of money. One food which is wisely used but much understood is milk, all things considered, the most perfect food which we have.

It can be substituted largely for eggs and meat, especially during the summer time. Even at ten cents or eleven cents a quart it is cheaper than eggs or meat, and will supply all the food elements contained in those articles. One quart of milk contains 640 food units. It takes eight eggs to supply the same amount of food units, so that even at thirty cents a dozen eggs are twice as expensive as milk.

Milk contains all the constituents necessary. It has proteins which repair the waste and build up the body. It has fats and sugar which act as fuel. It has minerals in the proper amount, and in addition to all this it contains those substances called vitamins which are essential for our nourishment.

When we compare it to meat, we will again find that it is much cheaper. Only one-half of the meat which we buy can be used as food. There is great waste in the matter of bones, skin, fat, etc. Milk is an especially good summer food.

Skimmed milk and buttermilk are also most valuable foods, and should not be thrown away. They contain all the essentials of a perfect food except the fat, and this can be supplied from some other source. The artificial buttermilks are, as a rule, cleaner and more palatable than the old fashioned buttermilk, though if this is well made and handled in a cleanly matter it is an excellent, palatable and nutritious food, especially valuable during the warmer months. A slight amount of souring does not injure its food value, and makes it more palatable for many people.

FILTH MEANS DISEASE and flies are born in filth, feed on filth and carry filth with them wherever they alight. Flies hatching today in an outhouse, stableyard or in garbage, may bring distress to your family later on in the summer. They may bring typhoid fever, summer complaint, consumption, malaria, or perhaps infantile paralysis. The fly is almost the exclusive conveyor of diarrhoea and dysentery among children and babies.

Red Devil Lye

Eats Filth and Destroys the Fly Eggs

This wonderful Lye eats up filth and leaves absolutely nothing for flies to feed on or breed in. Just sprinkle it once or twice a week in the privy or outhouse. It does the work. Encourage your neighbor to clean his outhouse also, because what's good for yours is good for his.

RED DEVIL LYE is also simply wonderful for making soap, conditioning hogs, and for making compost for fertilizer.

RED DEVIL LYE is sold by all grocers. Demand 10c. cans. One dime can contains more than two nickel cans. Send Postal For Free Booklet.
